

*Making life better...
from the ground up.*

Wondering if there is anything you can do with that worn and unattractive concrete patio or driveway? Building an outdoor kitchen and interested in having concrete countertops, cabinet cases and flooring? Remodeling your home and looking for a rich, beautiful and unique floor covering? Want to put your logo in concrete at the entry to your business? Consider decorative concrete!

Decorative concrete overlays and staining by Gooding Decorative Concrete can transform your existing concrete into beautiful, one-of-a-kind surfaces. Using overlays and stamps, stains and dyes, pigmented concrete sealers and epoxies, templates and engraving ... and your imagination ... you no longer need to tear out, hide or cover your worn and unattractive concrete. We can transform it into a beautiful and durable surface.

The overlay systems combine the strength of cement with the durability and bonding power of polymers and

acrylics. Colors are added to enhance the beauty of these durable products. Stains and dyes, along with engraving equipment are used to score decorative patterns into your existing concrete surfaces. A penetrating cure and seal is applied to provide superb durability, weather and UV resistance and ensure a long product life.

Gooding Decorative Concrete's mission is to transform your existing concrete by providing outstanding customer service, delivering excellent results and employing talented and dedicated men and women. Marshall Gooding, owner, has extensive experience in the construction industry. His interest in the industry began

with the influence of his mother, Ann Gooding, an interior designer. He has built homes, cabinets, furniture, arbors, and water features. Our staff, including Debbie Brower, Jaclyn Gooding, and Miranda Williams, all graphic designers, have a combined total of more than 30 years of experience. Charlie McMurphy, Marketing and Customer Service, will

Marshall Gooding, Owner

make sure you have the information you need.

Gooding Decorative Concrete is a small family owned and operated contractor business specializing in staining, engraving, overlaying and stamping established concrete. The business center is located in Texarkana, Texas, with easy access to all residential and commercial sites in the Ark-La-Tex and surrounding area.

Gooding Decorative Concrete makes it possible for customers to convert their dreams and ideas into plans. We take those plans and convert our customer's dreams into reality.

For a free estimate, give us a call. We'd love to talk with you!

Other companies may talk about experience -- our quality shows in our work!
