

## ***Did you know...***

That most of the furniture made today uses substitute materials such as particleboard. Because particleboard is made from wood fragments bonded with resin, it is considered an all wood product BUT IT IS NOT solid wood.

Our Amish furniture is made of SOLID Oak, Cherry, Maple, Hickory or Quartersawn Oak.

## ***Why is Oak Creek Furniture Different?***

We have chosen Amish furniture craftsmen who are recognized leaders in the solid wood furniture industry. Amish furniture is made by hand in small Amish wood shops so every piece of furniture receives the same attention to detail. Our Amish handcrafted furniture is built to last.

## ***Why all the fuss about details?***

Because the Amish craftsmen build furniture that your children and grandchildren will be proud

to inherit. Come see our Amish bedroom furniture and Oak dining room furniture. The selection of the boards and the grade of the hard wood, along with

dovetailed drawers, mortise-and-tenon construction and the multi-step finish are all just small parts of the build process that add up to an heirloom quality piece of oak or cherry furniture.

## ***For everyone in your family...***

Choose only the best for your bouncing, beautiful baby with this exceptionally well-built children's furniture handcrafted to the highest standards. All furniture comes in a generous offering of finished-to-perfection hardwoods.

# Polywood Furniture

At Oak Creek Furniture, you will find many different styles of polywood furniture. The material used is water and weather resistant, and most importantly, created from recycled polyethylene. For this reason, our polywood lawn furniture is considered a **green** product. There is no maintenance required, no cracking or splinting, and the polywood material does not promote bacterial growth or mildew. Choose from seven different colors and products such as swings, gliders, benches, deck chairs, table & chair sets, bridges and footrests.

A traditional Amish wedding involves food preparation that starts a year before the wedding. Only their very best recipes are on the reception table.

Hence, our line of "Amish Wedding" foods -- the very best recipes prepared especially for you! Come see our huge

selection! From spices, to pickles and jellies, to butter and cheese, you will be delighted!

Great gifts ideas for Christmas! Do you have someone who LOVES collecting chickens? Or maybe needs a basket full of goodies? We can help you choose the perfect gift!
